## W3 Total Cache by W3 EDGE®

### Viewing: Minify Settings ▾

Minify via **disk** is currently **enabled**.

To rebuild the minify cache use the  operation. Get minify hints using the  wizard.

#### General

**Rewrite URL structure**  
*If disabled, CSS and JS embeddings will use GET variables instead of "fancy" links.*

**Automatically upload modified files**  
*If CDN is enabled (and not using the origin pull method), your minified files will be automatically uploaded.*

Minify error notification:  ▾  
*Notify when minify cache creation errors occur.*

#### HTML

HTML minify settings:

- Enable
- Don't minify feeds
- Inline CSS minification
- Inline JS minification
- Line break removal

Ignored comment stems:

google\_ad\_section\_  
 RSPEAK\_

*Do not remove comments that contain these terms.*

#### JavaScript

JS minify settings:

- Enable
- Combine only after <head>
- Combine only after <body>
- Combine only before </body>
- Comment removal
- Line break removal

JS file management:

Theme:  ▾  
*Files are minified by template. First select the theme to manage, then add scripts used in all templates to the "All Templates" group. Use the menu above to manage scripts unique to a specific template. If necessary drag & drop to resolve dependency issues (due to incorrect order).*

**No JS files added**

#### Cascading Style Sheets

CSS minify settings:

- Enable
- Combine only
- Comment removal
- Line break removal

CSS file management:

Theme:  ▾  
*Files are minified by template. First select the theme to manage, then add style sheets used in all templates to the "All Templates" group. Use the menu above to manage style sheets unique to a specific template. If necessary drag & drop to resolve dependency issues (due to incorrect order).*

**No CSS files added**

#### Advanced

Update external files every:  seconds  
*Specify the interval between download and update of external files in the minify cache. Hint: 6 hours is 21600 seconds. 12 hours is 43200 seconds. 24 hours is 86400 seconds.*

Garbage collection interval:  seconds  
*If caching to disk, specify how frequently expired cache data is removed. For busy sites, a lower value is best.*

Rejected user agents:

*Specify user agents that will never receive minified content.*

- Note(s):
- Enable [HTTP](#) compression in the "Cascading Style Sheets & JavaScript" section on [Browser Cache](#) Settings tab.
  - The [TTL](#) of page cache files is set via the "Expires header lifetime" field in the "Cascading Style Sheets & JavaScript" section on [Browser Cache](#) Settings tab.
