W3 Total Cache by W3 EDGE

Viewing: Object Cache Settings

Object caching via **disk** is currently **enabled**.

To rebuild the object cache use the operation.

General

Don't cache WordPress Admin

Leave this option checked to maintain default WordPress Admin behavior.

Advanced

Default lifetime of cache objects: seconds

Determines the natural expiration time of unchanged cache items. The higher the value, the larger the cache.

Garbage collection interval: seconds

If caching to disk, specify how frequently expired cache data is removed. For busy sites, a lower value is best.

Never cache the following pages:

Always ignore the specified pages / directories.

Global groups:

users
userlogins
usermeta
site-options
site-lookup

Groups shared amongst sites in network mode.

Non-persistent groups:

comment
counts

Groups that should not be cached.
